Creation of Project details in JIRA

Assign the Task to Ambala Rakesh

/ Add epic / DTAB-2

Axis Bank Customer Databse Testing And Handling.

+ Add   Apps

Description

Dear Ambala Rakesh,

I hope this message finds you well.

I am reaching out to assign you a task involving the execution of test cases related to "Axis Bank,s Database Testing" processes. This work is essential for maintaining our quality assurance standards and ensuring seamless functionality across our systems. Here are the details and guidelines:

Task Overview:
Objective: To execute and validate test cases based on Axis Bank's standards.

Ambala Rakesh , You will going to help me to create the schema and the customer table: (AxisBank_Customer)

Tools Needed: Jira Software Tool , Microsoft SQL Server Access.

Expected Outcome: Successful completion of the operation with documentation of results and any identified issues. and mention Expected results , Actual Results , Status……

Important Details:
Deadline: [6 Nov 2024 , 1PM to 9 Nov 2024 12AM]

Reference Materials: [Training sessions]

Contact for Queries: [

1. Bhabani Sankar Khadiratna

2. Shubhadip Paul

3. Mansi Santosh Mahale,

4. Middela Sathvika]

Guidelines for Execution:
Ensure to follow the bank's data privacy and security protocols while handling any test data.

Use realistic and valid data sets to perform the tests.

Document the test execution process thoroughly, noting any discrepancies or bugs.

To start, please confirm your availability and any initial questions you might have. Once confirmed, you will be granted access to the required resources.

I am confident in your ability to handle this task with professionalism and precision. Please let me know if you have any concerns or require further clarification.

Looking forward to your response.
